A STRONG CHOICE FOR A BEAUTIFUL FINISH.

SturdiMount Mount Blocks are designed to provide a strong, smooth mounting surface that complements uneven exterior finishes such as lap siding, brick, stone or stucco.

- Pre-flashed and pre-assembled for protection against water damage.
- The mounting surface is manufactured of cellular PVC.
- Nail fin for incorporation into water-resistive barriers.
- Incorporated head flashing saves time.
- Does not split, crack, warp, or twist, will not chalk or fade.
- Does not experience moisture cycling so paint holds up better than on wood.

JOBS FINISHED USING STURDIMOUNT

If you're installing a premium hard board siding, the use of SturdiMount will ensure you don't end up like these homeowners.

JOBSITE FABRICATIONS

THIS PRODUCT CAN BE PAINTED. For best results, use a 100% acrylic paint or paint that is formulated to bond to plastic and PVC. Always follow the paint manufacturer's instructions for surface preparation and priming.

BE BOUNDLESS™

THE PRODUCTS TO DO EVERYTHING. THE POWER TO DO EVEN MORE.

We're answering "what ifs" on a whole new level—from the solutions we create to the dreams we build. We have the tools and technology to tell design stories on a bigger scale and on a more personal level. There are no limits to how far we innovate, how deeply we express, how strongly we commit and how boldly we go.

Together let's Be Boundless™.
